Choosing Abundance

EPISODE
1 · STEPS 1–3

> *Abundance is a lens you choose. Attention is light: what you focus on grows. Gratitude is the bridge from feeling lack to feeling abundant, even before the facts change.*

DO

- [ ] Catch one scarcity thought today. Name it, then choose the abundance lens.
- [ ] Name three things you already have.
- [ ] Give thanks in advance for one thing that is on its way.
- [ ] In a hard moment: notice, name it honestly, then give thanks.

SAY

"There is enough, and more can be created."

"Today is one frame, not the whole film."

"Thank you for what is already on its way."

REMEMBER

> The lens is a choice.

> Abundance is not denial. Hard seasons are real, and so is the open window.

> Feeling abundant does not wait for more.
